CAFTAN CAPSULE 2021

GOLDEN LILY

CAFTAN CAPSULE COLLECTION 2021

From times of hardship and sorrow, come resilience and strength. Creating a collection during a pandemic lead to the learning and appreciation of the simpler things in life, such as the everlasting beauty of flowers and the true meaning of luxury. Our Golden Lily Collection is the pinnacle of months of self evaluation and hard work from the Esme Vie team.

Taking inspiration from the natural colors found in flora and precious gems, our caftans were created in vibrant and spirited tones. Through tireless efforts from our couturiers, we were able to construct incredibly adorned necklines that are the pièce de résistance of our collection. Golden Lily also features amazing built-in capes and sleek silhouettes, alluding to the hero born in all of us after these trying times.

Comfort was also one of the main drivers in our creations, we sought out to design caftans that were both multifaceted and beautiful. The idea was to fashion a garment that was classical in beauty and that could be worn both at home and for special occasions. We realized that true luxury comes from strong craftsmanship and the ability to create garments that are timeless, elegant and comfortable at the same time.
