

ESME VIE

FALL WINTER 2021-2022

WINTER JASMINE COLLECTION

A little bit of Audrey Hepburn melancholy and a lot of hope for the future... These were the two main drivers for our Winter Jasmine Collection. We were inspired by times of freedom and elegance, where beauty lay in the sartorial and the sophisticated. From smart casual attire to outstanding outerwear, our designs were set for the modern woman to conquer her day to day.

True brilliance comes from simplicity and the ability to create multifaceted and eloquent pieces. Drawing inspiration from our true Milanese identity was the starting point for all our designs. White tones and strong reds are our star colors, ones representing hope and light while the others ignite as the passion we have kept during these trying times.

Our Winter Jasmine Collection is an ode to times of elegance and femininity with an edge only hardship and resilience could provide. Our take on the female suit is an Amaranto Red masterpiece worthy of remembrance and the epitome of our modern sartorialism. Strength with a mix of romanticism and casual with a hit of decadence is our Fall/Winter way.
